Congratulations on Filing your Claim

Congratulations on filing your claim! The Social Security Disability Claim process can be intimidating for many, and deciding to get started on that journey is a big step, we commend you for your initiative.

By hiring The Packard Law Firm to represent you, you are off to a great start and a step ahead of those who have not. Since the majority of individuals only sign up once for Social Security Disability, they are often disadvantaged with no one to show them the ropes or help them to avoid pitfalls in the process that a seasoned attorney can guide you through.

Our office collectively holds decades (centuries even) of experience working with Social Security. We have chosen staff who have their own personal experience(s) with Social Security and many have filed claims for themselves or loved ones in the past. Several of our staff have even worked for Social Security. This means that not only do we understand the process, more importantly we have a deep desire to ensure you get the benefits that you need as quickly and efficiently as possible.

We've assembled this Social Security Disability - Welcome Packet, as well as several videos to help answer your questions, to give you a quick reference guide, and to keep you informed of the Social Security Disability Process. We hope you will take the time to review the information contained herein, and that it proves to be helpful to you.

Thank you for choosing the Packard Law Firm to represent you throughout the life of your case! If you have any questions, please don't hesitate to reach out. A Paralegal is assigned to you as your Case Manager and their information is attached to this Welcome Packet.

Warm regards,

Samuel Packard

Social Workers

The Packard Law Firm understands that the fact that you are applying for Social Security Disability benefits means that you may be going through very difficult and stressful situations in your personal life. As an added benefit to working with the Packard Law Firm, you will have access to Social Workers. These Social Workers are able to help you through a variety of life changes and can help you gain access to resources that are available to you.

Some examples of situations that the Social Workers can help you with include but are not limited to:

- Shelter
- Food or clean water
- Medical Care
- Transportation
- Providing guidance for filling out paperwork

Providing access to Social Workers is one of the many ways that the Packard Law Firm is different. We hope that you will utilize this resource that we provide you, and that it will help alleviate the burdens of this sometimes long process. We truly care about your wellbeing and do not want anyone to suffer.

What can I do to improve my chances of winning my case?

There are several things that you can do to improve your chances of winning your case.

- The most important thing for you to do is take care of yourself and get all the treatment recommended by your medical team. **Get as much medical treatment as you can afford!**
- Talk with your doctors about ALL of your limitations. Be specific in describing your disabilities to your doctor, and don't let your doctor rush through your appointment.
- Communicate with our office about any changes to your medical care, or your living situation. Some of the living situation changes won't have a large impact on your case, but we do have resources to help you get the care you need.
- When you receive correspondence from the SSA or our office get in touch with us quickly to help us advance your case in a timely manner.

Social Security Timeline - Image

What is the Social Security Timeline?

Some win a few months after they apply, most will go through two appeal processes and a hearing before receiving an approval. This process is established by the SSA and must be filed in the order that they have established.

*Win percentage varies widely based on the amount of medical treatment a person receives while their case is litigated. The estimates found here are approximations based on SSA's official statistics. Visit the following site for more detail:

Other FAQs

What to Expect: If your Case is Denied

Historically, The Packard Law Firm wins approximately 75% of claims that we work with. This means that your case will most likely be approved. **However**, if you do receive a Denial what should you expect? If it is in the Initial Application or Reconsideration Appeal stage, The Packard Law Firm is already working on filing an appeal to start the next stage. Unfortunately, denials at the initial and reconsideration stages are common.

If you receive a Denial after having had a Hearing, The Packard Law Firm will review your case and determine the best course of action and either recommend to appeal the decision or many times, simply refiling the claim is what will yield the best results.

What to Expect: If your Case is Approved

If your case is approved, the SSA will begin to disconnect our firm from your case, thus our ability to help you resolve problems will be limited. We strongly encourage taking a proactive approach to receiving your benefits by reaching out to your local office and determining what information they need from you to begin receiving your benefits.

The process to receive your benefits generally takes a few months. Social Security will send you a letter called the Notice of Award. The NOA will provide you with the terms and conditions of your benefits as well as the value of your benefits, monthly payments, and the attorney fee.

The NOA will also discuss the date that SS determines as the official Onset Date of your disability. This date will be used by the SS office to calculate the benefits that you will receive. After 24 months of receiving SS benefits you become eligible for Medicare.

Important Changes to Access Your Social Security Account

- Soon you will no longer be able to sign in to your online Social Security account using your Social Security username and password. To access Social Security online services, including *my Social Security*, you will need to create a Login.gov or ID.me account.
- This change simplifies your sign-in experience and aligns with federal authentication standards while providing safe and secure access to our online services.
- If you are one of the millions of account holders who already use Login.gov or ID.me account to sign in, you do not need to take any action.
- **To transition your account, please go to “Sign in” at the top of our website and select “Sign in with Social Security Username.” After successfully signing in you will be asked to create an account with Login.gov. Login.gov has 24/7 customer phone and chat support to answer your questions and, if needed, help you with creating your account.**
- After you successfully link your Social Security username with your new Login.gov account, you will see a confirmation screen and be directed to the service you were attempting to access. You can start using your new Login.gov account to access Social Security online services immediately. Your old Social Security username will no longer be available.

If you have any questions, please refer to your case manager's contact sheet which provides their phone and email contact information.
